

# Paper Airplanes

**Saturday July 18**  
**Demonstrations**  
**10:30, 11:30, 12:30, 1:30**

John Collins, Master Paper Plane Builder and Author

John's creative designs include planes so light that simply holding it above your hand and walking makes it fly. He has planes that perform aerobatics and even planes that become two when thrown in the air.

John has written various books including "Fantastic Flight" and "Gliding Flight" that will be available at the event.
