Our Mission

We use aviation as a gateway for people to embrace adventure and innovation while using tools of science to explore how the physical world works and how the dream of flight is made into reality.

Highlights of the Past Year

The 2013-2014 fiscal year was devoted to school field trips, public events and programs that provided museum visitors from the Bay Area with inspiring and educational aviation and STEM experiences. During twelve months, 97,787 people visited the museum. About 28,000 visitors, mostly youth, participated in over 2,800 hands-on programs. We delivered 813 museum tours and science programs to 10,622 school children and their adult leaders from 230 different Bay Area schools. Approximately 10% of these visitors were from low-income classrooms who attended free or at reduced cost.

Over 800 Boy Scouts and Girl Scouts participated in 37 badge workshops. Twelve weeks of Summer Camp was attended by 1,156 youth. The Flight Sim Zone was used by 13,682 visitors, including 6,620 public users on weekends who received at least 30-minutes of simulated flight time with a pilot instructor. Eight installments were presented of our popular early-childhood reading program, Soar with Books. The museum’s portable Star Lab planetarium was used to present 80 programs to 825 youth.
**Highlights (continued)**

Brand new weekend events devoted to innovation and invention delivered programs to 227 children. Over 90 programs were delivered after school and offsite to elementary and middle schools for 1,304 students.

The Hiller Aviation Museum continues to thrive and serve the Bay Area as an inspiring resource for aviation experiences and STEM (science, technology, engineering, mathematics) education.
